

HarperCollins Publishers
AI-Assisted Manuscript Evaluation Review Protocol

Editor Name: _____

Date: _____

Query Letter ID: _____

Author Name: _____

Manuscript Title: _____

MANDATORY VERIFICATION REQUIREMENTS

All items must be completed prior to finalizing editorial recommendation

☐ **1. COMPARABLE TITLE VERIFICATION**

All comparable titles recommended by the AI system have been independently verified:

Title 1: _____ ☐ Confirmed (source: _____)

Title 2: _____ ☐ Confirmed (source: _____)

Title 3: _____ ☐ Confirmed (source: _____)

Action Required: If any title cannot be verified as an existing published work,
reject AI output and regenerate evaluation.

☐ **2. SCORE CALIBRATION ASSESSMENT**

AI-generated marketability score has been evaluated against independent editorial judgment:

AI System Score: _____ / 10

Independent Editorial Assessment: _____ / 10

Variance: _____ points

Acceptable Variance Threshold: ± 2 points

If variance exceeds threshold, document justification below:

☐ **3. INTELLECTUAL PROPERTY COMPLIANCE SCREENING**

AI-generated evaluation has been reviewed for potential copyright concerns:

- ☐ No verbatim excerpts from published works detected
- ☐ No substantial similarity to copyrighted material identified
- ☐ No protected content (lyrics, poetry, prose) reproduced in output

Action Required: If any copyrighted material is detected, escalate immediately to Legal Compliance for review prior to proceeding.

☐ **4. SUBSTANTIVE JUSTIFICATION REVIEW**

AI recommendations are supported by specific, defensible editorial criteria:

- ☐ Strengths and weaknesses cite concrete manuscript attributes
- ☐ Market positioning rationale includes verifiable comparable examples
- ☐ Recommendation includes actionable editorial feedback

Generic or unsupported statements require independent editorial override.

☐ **5. FINAL EDITORIAL DETERMINATION**

Editorial Decision:

- ☐ Request full manuscript for review
- ☐ Decline with standard communication
- ☐ Decline with personalized feedback

AI Recommendation Override: ☐ Yes ☐ No

If override applied, provide substantive rationale:

EDITOR CERTIFICATION

- ☐ I certify that all mandatory verification requirements have been completed

- ☐ I accept full editorial responsibility for the final acquisition decision
- ☐ I acknowledge that AI systems serve as advisory tools and do not replace professional editorial judgment

Editor Signature: _____

Timestamp: _____

FOR AUDIT AND COMPLIANCE PURPOSES

This completed form must accompany all AI-assisted editorial decisions.
Decisions rendered without documented verification are not valid for regulatory or legal review.
